

PAVIGEL

Stain proof sacrificial gel

DESCRIPTION

Isoplam® Pavigel is a protective gel, completely reversible to pressurized water, formulated to protect surfaces adjacent to working places where concrete materials could damage them. Isoplam® Pavigel creates a protective film that avoids the attachment of concrete or lime on the surface.

FIELDS OF USE

Isoplam® Pavigel can be used to protect:

- Natural stones;
- Concrete floorings or coverings;
- Every kind of surface that can be washed with a high-pressure cleaner.

APPLICATION

Isoplam® Pavigel is ready to use. Its coloration makes possible to control where the product has been applied and it does not stain the support to be protected.

Mix well before use.

Apply the product with a brush, a roller or a low-pressure vaporizer: in this case, dilute the product with a 10% of water up to the saturation of the product.

Once the operations have been finished, Isoplam® Pavigel will be removed with a high-pressure cleaner and the dirt will be removed together with Pavigel.

TECHNICAL FEATURES

The consumption may vary depending on the porosity of the support and on the kind of support.

With a bucket of 14 Lt, 70 m² can be approximately treated.

Temperatures for use: from +5°C to +35°C.

PACKAGES AND STORAGE

Isoplam® Pavigel is supplied in buckets of 14 kg.

If stored in the original packaging in a dry place the product lasts approx. 12 months from the date shown on the package (the lot number indicates, in sequence, year / week / day). It fears the frost.

If properly stored, it keeps for 12 months in its original sealed packages.

WARNING

Consult the Safety Data Sheet before use. Isoplam® Pavigel is intended for professional use only. Try the product before use.

IMPORTANT:

The product PAVIGEL is intended for the use as indicated above. Adding any other product will impair the final result. All information contained herein is based on the best practical experiences and laboratory research. It is the customer's responsibility to determine whether the product is suitable for the intended application. The manufacturer declines all responsibility on the results due to incorrect application of its products. The product shall always be tested on a small area before full scale application.
