

# PLAM DUST CLEANER

## Dustproof product

### DESCRIPTION

Isoplam® Plam Dust Cleaner is a neutral liquid cleaner.

### ADVANTAGES

Isoplam® Plam Dust Cleaner:

- Has a low foaming standard;
- Is not corrosive;
- Is odorless;
- Has an active percentage of 75%.

### FIELDS OF USE AND APPLICATION

Isoplam® Plam Dust Cleaner may be used for several uses.

- **STAMPED CONCRETE:** it reduces dust creation caused by the releasing agent during the washing step. It must be vaporized on the surface and kneaded with a soft bristled broom in order to incorporate the releasing agent. Rinse with plenty of water (using a high-pressure cleaner, paying attention not to damage the fresh concrete surface). The indicative consumption is 0.2 lt/m<sup>2</sup>.
- **CONCRETE SURFACES:** it has a cleaning function. It should be diluted 1:1 with water. It is suggested to use an automatic washer or a mono-brush (with a white sponge disc or soft bristles brushes). Rinse with plenty of water.
- **TILES:** It gently cleans surfaces. It should be diluted 5-50 gr/lt of water according to the intensity of the dirt to be removed. Rinse with plenty of water.

### PACKAGING AND STORAGE

Isoplam® Plam Dust Cleaner is supplied in packages of 20 Lt.

If properly stored it is guaranteed for 24 months. The packaging date is shown on the package (the lot number indicates, in sequence, year / week / day).

Keep away from frost.

### SAFETY

Consult the Safety Data Sheet before use. Isoplam® Plam Dust Cleaner is intended for professional use only.

#### IMPORTANT:

The product Plam Hardening is intended for the use as indicated above. Adding any other product will impair the final result. All information contained herein is based on the best practical experiences and laboratory research. It is the customer's responsibility to determine whether the product is suitable for the intended application. The manufacturer declines all responsibility on the results due to incorrect application of its products. The product shall always be tested on a small area before full scale application. This data sheet replaces all previous data sheets. ISOPLAM reserves the right to change the data on the data sheet at any time. Plam Hardening is intended for professional use only. ISOPLAM provides frequent and on demand trainings for its customers. The use of ISOPLAM products without receiving the proper certification will be at the customer's own risk.
